At approximately 1:15 p.m., Detective spoke by phone with Detective who indicated the owners of the Ferguson Market were not willing to consent to a search of the store’s video system. Detective contacted Detective and directed him to prepare a search warrant for the associated items.
At approximately 3:00 p.m., Detective prepared and applied for a search warrant requesting the seizure and search of a black and silver computer with serial number 16201080900995 located within the Ferguson Market. After a review of the facts and circumstances of the incident, the Honorable Judge signed the warrant authorizing the search of the Ferguson Market and seizure of the computer.

After obtaining the search warrant, Detective drove to the Ferguson Market with Detective and Detective of the Saint Louis County Police Department’s Division of Criminal Investigation, Crime Scene Unit. Detective handed the search warrant to attorney who was representing the business owners. reviewed the search warrant and complied with the removal of the following item:

- Black/Silver Misc brand computer Serial Number 16201080900995

Detective conducted a manual check of the computer’s software to ensure that the video surveillance software and footage was in fact being stored on the computer’s hard drive. During this check, Detective observed a username and password was needed to access the DVR software. A store employee provided Detective with the username and password.

Detective seized and photographed the computer. Detective later took custody of the computer at the Saint Louis County Police Department’s Computer Forensics Lab.

Detective took several photographs of the computer prior to disassembling it for examination.

Detective removed a Western Digital (500 Gigabyte) internal hard drive from the computer.

Detective connected the hard drive to a Tableau Forensic Duplicator (TD2) and extracted a forensic image of the hard drive to a computer lab hard drive that had previously been wiped to ensure no data was present.

Detective created two additional forensic images of the computer hard drive for examination purposes. The original hard drive discovered in the computer was seized as evidence to ensure the original data was not disturbed. One forensic image was seized as evidence.

Due to the specific DVR (digital video recorder) being utilized by the Ferguson Market, Detective inserted one of the hard drives containing a forensic image of the computer to enable his examination. Detective then powered on the computer and observed that the computer successfully completed the boot process. Detective then activated the “Dvis DVR” software and discovered it successfully loaded the video surveillance contained on the computer hard drive.

Detective extracted two sets of surveillance footage to DVD discs.

The first set of surveillance footage was from August 9th, 2014, shortly after 1:00 A.M. A copy of this was seized and packaged as evidence.
The second set of surveillance footage was from August 9th, 2014 after 11:00 A.M. A copy of this was seized and packaged as evidence.

Talked with victim for 25-30 min
About god He says the Lord Jesus Christ
Would Help me Through my Problems
Then said He was going to Store
& He would Be Back
Then I Heard a Pop (thought nothing)
Then another looked over seen
Victim Stumbling & Running Thought
gunfire figured He was Running
from who had gun
Then He Threw His Hands
Up & yelled ok ok ok ok ok
A Police Officer (who said nothing)
emped his gun into The guy
I Believe 7 more at close Range
What Happened Before The first 2
I don’t know but from When He said
He would Be Back I would say
25-30 minutes Passed Before Shots fired”
